

# HOW TO ENABLE JAVASCRIPT

## Internet Explorer :

1. Go to *Tools* from the top menu
2. Select *Internet Options*
3. Click on the *Security* tab
4. Click *Custom Level*
5. Scroll down until you see the *Scripting* section
6. Ensure that the *Active Scripting* option is set at *Enabled*
7. Click *OK*

## Mozilla Firefox :

1. Go to *Tools* from the top menu
2. Select *Options*
3. Click on the *Content* button
4. Ensure that the *Enable JavaScript* option is checked
5. Click *OK*

## Google Chrome :

1. Click the Chrome menu in the top right hand corner of your browser
2. Select *Settings*
3. Click *Show advanced settings*
4. Under the "Privacy" section, click the *Content settings* button.
5. In the "Javascript" section, select "Do not allow any site to run JavaScript" or "Allow all sites to run JavaScript (recommended)"

## **Other browsers?**

Most (if not all browsers) give you the option to enable/disable JavaScript. If your browser is not listed above, the steps above will give you some idea of how to find it. Just look for something called *tools*, *options*, *preferences* or something similar.
